Product Data Sheet

36-Device Chromebook® and Laptop Cart— Single Frame with Medium Slots, Hinged or Sliding Door

Overview

The Black Box Chromebook and Laptop Cart includes three unique benefits:

- The “buy it once own it for life” flexible racking technology allows your cart to change as your devices change.
- The safety first design greatly helps reduce potential injuries or accidents.
- The rapid wiring system reduces the time to deploy by as much as 75%.

Basic Features

- Store, secure, transport, and charge any combination of up to 36 Chromebooks or laptops. This model comes with three removable 12-slot shelves. As your needs change in the future, the carts can be reconfigured by swapping out the shelving for laptops, notebooks, tablets, and e-readers, or a combination of equipment and storage options.
- Cart cycles power via the included UL® approved timer and power strip. Outlets are preset to 15-minute increments and require no customer configuration. Power is provided to one shelf of equipment at a time.
- The always-on user outlet is internal to the cart for maximum safety, keeping users safe from the potential danger of electric shock.
- Ships fully assembled.
- Includes durable all-steel chassis and locking doors for security.
- Vented panels and doors keep equipment cool.
- Cable management bars and power wraps maintain order. Carts can be pre-wired for maximum savings and efficiency.
- Optional drawers and shelves accommodate devices such as DVD players, printers, projectors, and other peripheral devices.
- Two locking/swiveling and two fixed casters (5" heavy-duty) provide unrestricted and easy movement with controlled steering and functionality.
- Users can access devices from the front of the cart, and IT administrators from the back.
- Push/pull handle on cart doubles as a power cord wrap.
- Assembled in the U.S.A.

Standard Features

Standard rack mounting allows greater flexibility.

UCCSM-12-36H has hinged door with handle.

Power brick lacing stores power bricks easily and neatly (medium- and large-shelf models only).

Durable push/pull bar and power cord wrap.

Rackmounted shelf with rolled stainless steel device slots that help prevent scratches.

Locking rear access panel.

Cable managers open easily for fast cable routing.

Laminate top provides extra working space.

Options

Optional integrated pop-up power port for maximum safety.

Optional drawers and shelves available.

UCCSM-12-36T "pinchless" sliding door saves space.

About Black Box

Black Box, founded in 1976, is a leading device storage and charging cart and locker solution company. The company offers a wide array of carts and mobile and fixed locker systems for Chromebooks, tablets, iPad, Laptop and other devices. In addition to carts and lockers, the company also provides a wide array of infrastructure, networking, KVM and pro-AV solutions, including digital signage.

The Black Box quality management system is ISO 9001:2008 certified, and the company has received numerous industry recognitions for quality and innovation.
